A DEEPLY AFFLICTED FAMILY.—Among
the many afflicted families who have been
called to mourn the loss of friends of late in
Putney, none share more largely the sym-
pathy of the community than the wife and
children of J. A. Deming. About one year
since, the eldest son, a lad of much promise,
was stricken down by death. In March
last, that cruel disease, diphtheria, laid its
deadly hand upon the eldest daughter, Ab-
bey, who after a short but painful struggle
fell a prey to its fatal grasp, leaving a large
circle of youthful associates, and the sor-
rowing family in sadness and gloom. In
April, the Father, after a long and severe
combat, during which all that kind sym-
pathizing friends could do, aided by the skill
of physicians, also fell a victim to the same
cruel disease, leaving the wife and five
young children to mourn his loss.

By this bereavement, many hearts are
made sad and sorrowful—society has lost a
valuable member—the sick and suffering
one who was ever ready to administer to
their necessities—the Fraternity one of its
officers and esteemed brothers—the afflicted
children a kind and affectionate Father—the
wife a partner whose greatest earthly
care was to contribute to her enjoyment
and that of her children—the sister an only
brother—his parents one to whom they had
looked for help in their declining years and
to soothe their passage to the tomb.

Windsor County Court.

MAY TERM.

The May Term of the Windsor County
Court commenced its session May 26th.
The following report should have appeared
last week, but was inadvertently omitted.

Only eight civil cases were set for trial
by jury at the calling of the docket. The
first case tried was Sewall Fullam vs. War-
ren Adams, being an action to recover cer-
tain fees claimed by plaintiff for profes-
sional services. The testimony in this case
closed on Wednesday afternoon, and on
Thursday the jury returned a verdict of
\$600 for plaintiff.

On Thursday, Gardner Winslow vs. Al-
bro S. Perkins was tried. This was an ac-
tion of trover for the conversion of a piece
of paper, about three inches square, which
had been out from the militia roll of the
town of Pomfret. The damages were laid
at \$200. The testimony on the part of the
plaintiff failed to establish a value greater
than \$20, and the court dismissed the case
for want of jurisdiction.

The Woodstock Standard says that at
the conclusion of this trial, the court took a
recess until Tuesday, June 24, when the
case State vs. Francis Holt and Harlan
Holt. Harlan Holt failed to appear, and
his bonds were forfeited. Francis Holt was

arraigned and plead not guilty. C. P.
Marsh, State's Attorney, and W. C. French,
for the prosecution; Dennison and Dilling-
ham for respondent.

This is an indictment for procuring an
abortion on the person of one Rosanna Lee,
at Sharon, by administering poisonous med-
icines, and the case excites considerable in-
terest.

PETTIT JURORS.

Barnard—Linneus Bugbee, Celine E.
French, Wm. H. Perkins, Elias Smith.
Baltimore—Zenas H. Graves, Joseph W.
Leland.

Ludlow—Henry Adams, Solon L. Ath-
erton, Emanuel S. Morgan, Alden Patch.
Cavendish—Samuel H. Adams, Joshua
Parker, Eliza D. Small, Peter K. Spaul-
ding.

Hartland—Gilbert W. Atwood, Foster
T. Alexander, Elam M. Goodwin.
Sharon—Orville W. Burnap, Norman F.
Bush, Joseph L. Fay, Chandler Ladd.
Springfield—John R. Gill, John O. Walk-
er, Nathan P. White, Lyman Woodward.
Weatherfield—Erastus N. Dart, Justus
Dart, Albert Davis, Abijah B. Gowing.

A correspondent writing us June 4th,
says: "I came from Woodstock yesterday,
where our County court is in session. The
litigious glory of old Windsor is depart-
ed—only ten cases, on the call of the dock-
et, were set down for trial, and only two of
those were tried. Only about fifty new en-
tries (less than one to each attorney) were
made, when formerly two hundred and more
was the custom."

MURDER OF COLONEL CAMERON.—A
few days after the evacuation of Jackson by
our forces, Gen. Grant sent two wagon
loads of provisions back from our front un-
der a flag of truce for the use of our wound-
ed. The officer in charge was a major
the 2d Illinois cavalry. When within
two miles of the town our men were met by
the rebel pickets, who at first would permit
them to proceed no further. The major in
command refused to deliver the provisions
to any other person than the Union sur-
geon in charge of our wounded at Jackson,
and was finally allowed to enter the town,
blindfolded, while Confederate soldiers drove
his teams. He found the citizens very much
excited, and very indignant about the sack-
ing of the city by our soldiers. They in-
sulted him repeatedly.

While there he heard of the murder of
Col. Cameron, of the 47th Illinois, by a
party of Rebel cavalry. Col. Cameron re-
mained behind our forces after the evacua-
tion of Jackson, to urge stragglers forward.
He was alone without any of his command.
At the public square a crowd of citizens
surrounded him, and commenced heaping
violent abuse upon him. He replied to them
kindly and pleasantly that he was
sorry for the existence of the war, and hoped
it would soon end, but only in the restora-
tion of the Union. He had a wife and
family at home, he said, and he much pre-
ferred their company to the army. Find-
ing that he was exciting a good deal of sym-
pathy, a Rebel officer marched up and made
a breach through the crowd, through which
he could pass. Col. Cameron rode off. He
had gone but a short distance when a squad
of Rebel cavalry dashed after him, overtook
him, and shot him through the heart. This
is the story of an Episcopal Bishop who
lives in the city.

NEGROES NOW UNDER ARMS.—There
are probably more colored men now under
arms than most people suppose. The An-
gelo African says that two weeks ago Ad-
jutant General Thomas had 11,000; Gen.
Banks 3,000; Kansas regiments 1,000;
Gen. Hunter about 3,000; Gen. Foster 3,
000; Gen. Rosecrans about 5,000; navy
5,000; Gen. Curtis 2,000; Massachusetts
regiments 1,200; District of Columbia 800,
making a total of 35,000. We know that
the estimate in some of these cases is too
small, and that the actual number is prob-
ably nearer 50,000. Gen. Ullman in Louisi-
ana has not done so much as he would have
done, had it not been for the arrangements
made with Gen. Banks and the planters for
paid negro labor. But Gen. Banks said
recently that a country would soon be open-
ed where negro enlistments might be made
to any extent. He probably meant Missis-
sippi, which bids fair to be soon in our pos-
session.

GERRILLA ATROCITIES IN MISSOURI.—
A Baltimore clergyman sends to the En-
quirer of that city the following extract
from a letter just received from one of his
correspondents in Green county, Missouri.
The writer is a minister of the gospel, of
the Baptist persuasion:

"The rebel bushwhackers are at work,
as I expected would be the case when the
leaves came out to hide them, and the grass
to feed their horses. Every few days we
hear of men being shot from the bush.—
They made a raid into Cedar county a week
since, and killed ten men, with most of
whom I was well acquainted. Seven of
them were militia men. They first strip-
ped them of everything but their shirts,
placed them together with their backs to-
ward them and shot them nearly all to
pieces, leaving their bodies on the ground.
The same company then passed on North
of Stockton, and shot two citizens, then to
the house of Elder Obadiah Smith, an old
Baptist preacher that I have known for
twenty years, and shot him with eighteen
balls. They took from his dead body about
\$300, and threw the empty purse in his
wife's face.

A party of rebels passed my house last

Tuesday, going North, about fifty in all.—
About twenty passed our road, and the rest
on another road. This is their way: they
scatter about, seizing horses, robbing stores,
&c., and come together at appointed places.
As they passed here they took horses from
the place, and took the mail carrier's horse.
No person or property is safe here unless
that of a copperhead. The government does
not molest these, and of course the pro-slav-
ery Democrats let them alone."

TRI FOR TAX.—The chivalrous rebels
at Port Hudson are in a perfect frenzy over
the fact that they are compelled to fight two
regiments of negroes at that place, and miss
no chance to kill negro pickets. In one in-
stance, they pounced upon a single black
sentry, captured and forthwith hung him.
The bloody instruction was quickly im-
proved, for almost within an hour some ne-
groes got hold of a rebel picket and swung
him up in full sight of their companion.

IMPORTANT TO FEMALES.

Dr. Cheeseman's Pills.

THE combination of ingredients in these pills are the re-
sult of a long and extensive practice. They are mild
in their operation, and certain in correcting all irregularities.
Painful menstruations, removing all obstructions, whether
from cold or otherwise, headache, pain in the side, palpitation
of the heart, white, yellow, and brown affections, hysteria,
twinges in the back and limbs, &c., disturbed sleep,
which arise from irregularity of nature.

DR. CHEESEMAN'S PILLS
are the most effective remedy ever known for all complaints
peculiar to females. To all classes they are invaluable. They
are known to thousands, who have used them at different pe-
riods, throughout the country, having the sanction of some
of the most eminent physicians in America.

Explicit directions, stating when they should not be used,
with each box—the price \$1. per box, containing from 50 to
100 pills.

ILLUSTRATED
SCIENTIFIC AMERICAN
The Best Mechanical Paper in the World.

VOLUME VIII—NEW SERIES.

A new volume of this popular journal commences on the
first of January. It is published weekly, and every num-
ber contains a page of useful information, and from
five to ten original engravings of new inventions and dis-
coveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.
No person engaged in any of the mechanical or manufac-
turing pursuits, should think of "doing without" the Sci-
entific American. It costs but six cents per week; every
number contains from six to ten engravings of new machines
and inventions, which cannot be found in any other pub-
lication.

TO THE INVENTOR.
The SCIENTIFIC AMERICAN is indispensable to every in-
ventor, as it not only contains illustrated descriptions of nearly
all the best inventions which come out, but each number
contains an Official List of the Claims of all the Patents
issued from the United States Patent Office during the week
ending on the day of publication. We are also receiving, every
week, the best scientific journals of Great Britain, France,
Germany, and the United States, which are of great value
in transmitting in mechanical science and art in these dis-
tricts. We shall continue to transfer to our columns copious
amounts of information, and it is of whatever we may deem of
interest to our readers.

A pamphlet of instruction as to the best mode of obtain-
ing a Patent on new inventions, is furnished free on ap-
plication.

Messrs. Munn & Co., have acted as Patent Solicitors for
more than twenty years, in connection with the publi-
cation of the SCIENTIFIC AMERICAN, and they refer to 20,000
patentees for whom they have done business.

No charge is made for examining sketches and models of
new inventions, and for advising inventors as to their pa-
tentability.

CHEMISTS, ARCHITECTS, MILLWRIGHTS, AND
FARMERS.

The SCIENTIFIC AMERICAN will find a most useful
journal to them. All the new discoveries in the sciences of
chemistry and architecture are given to its columns, and the interests of
the architect and chemist are not overlooked; all new in-
ventions and discoveries are promptly and fully described, being
published from week to week. Useful and practical infor-
mation pertaining to the interests of the millwright and sail-
maker, will be found in its columns. The SCIENTIFIC AMERICAN, which
formation they can not possibly obtain from any other
source. Subjects in which farmers are interested will be
found discussed in the SCIENTIFIC AMERICAN; most of the
improvements in agricultural implements being illustrated in
its columns.

TERMS.
To mail subscribers, Three Dollars a Year, or One Dollar
for Four Months. The volume commences on the first of
January and July. Specimen copies will be sent to any
part of the country gratis.

Western and Canadian money, or Postoffice stamps take
in full for subscriptions. Canadian subscribers will be re-
quired to remit twenty-five cents extra on each year's subscription
to prepay postage.
